

# KZN COVID-19 PROCUREMENT DISCLOSURE REPORT

**KWAZULU-NATAL**  
PROVINCIAL GOVERNMENT  
REPUBLIC OF SOUTH AFRICA

# MEDIA STATEMENT BY KWAZULU-NATAL PREMIER ON COVID-19 RELATED EXPENDITURE BY THE PROVINCIAL GOVERNMENT

## Introduction and background

### Ladies and gentlemen

We have convened this media briefing as the government of KwaZulu-Natal in fulfillment of our commitment to clean, transparent and accountable governance.

As the sixth administration we have committed ourselves to delivering clean governance. We have thus been working hard daily to earn the trust of our people through ensuring that we spend resources in a prudent and accountable manner.

We live in an era of Covid-19, a health crisis of mammoth proportions. But together with our people we continue to work hard to ensure that we conquer this crisis.

As devastating as it has been and continues to be on our lives and livelihoods, the Covid-19 pandemic has also provided us with various opportunities. Part of these opportunities is the chance to build a new architecture of the economy and also to introduce new systems in terms of governance and administration

**Mr Sihle Zikalala**  
PREMIER OF KWAZULU-NATAL

## Government's response to Covid-19

The country has come far from the 5th of March 2020 when the first confirmed case of Covid-19 (patient zero) was discovered in this province.

The government moved quickly to implement a multi-pronged response to the crisis. Our response focused on health, on ensuring compliance with the lockdown regulations, on assisting the vulnerable and on economic recovery.

Our country's response to Covid-19 has been very swift and is by far one of the most celebrated responses across the globe. With the cooperation of citizens across the length and breadth of the country, the response has been effective and led to us saving lives.

## Efforts to label the government as irresponsible

As we worked hard to save lives and livelihoods from the health and socio-economic devastation of Covid-19, we had to disburse financial resources. Realizing that emergency procurement was always going to present risks, the provincial government took precautionary measures to prevent any abuse of these funds. Preventative measures include pre-audits of some of the procurement while municipalities, entities and departments have been asked to report regularly on procurement,

In cases where allegations of wrongdoing were reported, the government was quick to act on those. We have concluded two reports in a short space of time and those have already resulted in the suspension of officials from the Department of Social Development while the matter was also referred for criminal investigations.

However, despite all these efforts we continue to observe that in the public space there are sustained efforts to portray the government as corrupt and irresponsible.

This is part of a long drawn and bigger plan to characterize the government as wasteful. We are fully aware of these efforts because in the main they are a scarecrow to divert our society from the fundamental questions of radical economic transformation. While we believe that there should be no mercy on those that are corrupt and that the state should lead from the front in exposing that but we should not use the incidents of the few to demonize all the good work that the government has done

Some of these narratives are peddled without facts - and we hope that all the factual information we are releasing today will clear up the air.

## KZN Covid-19 Expenditure to date

By the 27th July, KwaZulu-Natal Provincial Departments had spent R 1 999 465 704 on the Covid -19 related expenditure. Municipalities had spent R925 271 000 and public entities spent R4 001 766. The expenditure by the province as at 27th July 2020, is R2 928 738 480.

As we alluded to earlier, the Covid -19 pandemic has presented us with various opportunities. Through our response to Covid-19 we have worked hard to ensure that we will emerge out of this situation having accelerated projects that would have otherwise taken very long to deliver.

Of the R1.9 Billion departmental spend, R1 139 923 090.99 (representing 57 % of departmental spend) was spent on infrastructure programmes. These are projects that relate to upgrades and alterations to health facilities and to the establishment of quarantine facilities.

Many of these are infrastructural projects in schools, in our hospitals and in our communities. Many of these projects will benefit our communities long after the Covid-19 pandemic has passed.

We are releasing this detailed information so that each transaction is in the public domain. We assure our citizens that if there is any wrong doing that emerges, we will act. There will be consequence management - internally through disciplinary procedures and where justified through criminal prosecution.

## KZN Municipal Covid-19 Expenditure to date

With regards to municipalities, the highest expenditure was reported by the eThekweni Metro with R447.4 million. This is due to the eThekweni Metro being the biggest municipality in the province and being the hotspot of Covid-19 infections. Second after eThekweni was the uMkhanyakude District Municipality with R154.4 million, followed by the uMhlathuze Local Municipality with R85.1 million, the King Cetshwayo District Municipality with R41.3 million and the Msunduzi Local Municipality with R23.1 million.

R thousand			Total Per Category					Grand Total
No	Dem	Name	General	Community & Social Services	Public Safety	Housing	Health	
1	ETH	eThekweni	108 594	97 036	88 190	77 657	75 920	447 398
2	DC27	Umkhanyakude	1 249	153 150	-	-	-	154 399
3	KZN282	uMhlathuze	22 389	28 492	23 821	9 442	1 004	85 148
4	DC28	King Cetshwayo	407	40 791	-	-	102	41 301
5	KZN225	Msunduzi	15 089	4 724	-	3 242	-	23 055
6	DC21	Ugu	9 446	8 972	-	-	-	18 418
7	DC22	uMgungundlovu	654	14 178	-	-	375	15 207
8	DC26	Zululand	8 726	-	-	-	4 199	12 925

10	KZN222	uMngeni	9 086	-	34	-	-	9 120
<b>Total</b>								<b>816 598</b>
<b>Total COVID-19 Expenditure</b>								<b>925 271</b>
<b>Percentage</b>								<b>88,3%</b>

In total, the 10 municipalities account for the bulk of the COVID-19 expenditure reported in the province which totals R816,6 million and constitutes 88 percent of the total expenditure reported.

## Life style audits

We also want to announce that the Provincial Executive Council, took a decision that in the interest of transparency and accountability to the citizens, it will undergo lifestyle audits. This will include the Premier, Members of the Executive Council, HOD's, Senior Managers and SCM Officials. The Provincial Executive Council believes that the integrity of those who serve our people should be beyond reproach. The Executive Council has taken this decision to demonstrate that those who serve the public must not only be competent but must exhibit good ethical and moral standing. Details on how this will be done will be announced in due course.

## In conclusion

A careful analysis of the expenditure will show that we have spent more on infrastructure than any other item. This is why we believe that Covid-19 related expenditure will leave a lasting legacy. Even more than that the expenditure has served to save thousands of lives and to shield our people from the socio-economic devastation resulting from this.

Our expenditure as KwaZulu-Natal should also be viewed in relation to our needs and population as the province. For example, this province runs the biggest schooling system in the country, thus it is expected that the expenditure on Covid-19 response in schools is going to be bigger than that of other provinces. Further than that we believe that a comparison of prices per item will show that KwaZulu-Natal has received value for money in most of the items procured as part of our response. We will publish all these details in the Provincial Government Website: [www.kznonline.gov.za](http://www.kznonline.gov.za) and the Provincial Treasury Website: [www.kzntreasury.gov.za](http://www.kzntreasury.gov.za)
