

Vote for the DA to end suffering in your municipality

By Dr Ivan Meyer, Minister of Agriculture and DA Federal Chairperson

Democrats, we are here today in Johannesburg, the financial capital of South Africa.

We are here with a purpose. The finances of most municipalities in SA are in a rotten state. We are here today to confirm our determination to cut out the rot.

We are here to fix it. Fixing municipalities is one thing the DA knows how to do. We have done it before because the DA gets things done.

We are also here today to declare that we are ready to bring major changes across South Africa. Join us on our journey to change the face of local government in SA.

You don't need to suffer anymore under corrupt mayors.

You don't need to suffer anymore because you have no access to water.

You don't need to suffer anymore because your municipality fails to provide proper sanitation.

You don't have to suffer anymore because your municipality fails to provide electricity.

You don't have to suffer anymore because your municipality don't collect your refuse.

You don't have to suffer anymore because your municipality fails to fix potholes.

You don't have to suffer anymore because your municipality appoints ANC cadres and then loot your local taxes.

You have the power to stop all of this on the 1st of November 2021.

You not only have the power. You have a responsibility and an obligation to STOP the rot in your town and cities.

I am calling on all South Africans to press the RESET BUTTON in your town by voting for the DA on 1 November 2021.

We have selected competent candidates in every ward, in every town across SA because it is time for change. VOTE FOR YOUR LOCAL DA CANDIDATE ON 1 NOVEMBER 2021.

Our track record is good governance and service delivery and we are committed to do more.

Vote to effect change. Vote DA and experience something different. Something new.

Something that will create an impact where you live, in your street, in your town and in your City.

All politics are local. Make the DA your local choice and you will experience something totally different at local level.

It is now or never, and this election is the last chance.

Your vote will make the difference and your vote can win it.

Thank you, Siyabonga, Dankie. God seën SA, God Bless SA, Nkosi' sikelele iAfrika.
