7. What interventions are being made to prevent backlogs at garages?

Reply:

Interventions are being made to prevent backlogs at the garages:

- Procurement for additional tools for the artisans;
- Procurement of more advanced power tools;
- Meeting and Product training;
- End users have been sensitized on how to properly book in vehicles into the garages
- Weekly meetings with all the Garage commanders;
- And daily meetings follow-up on vehicles in the garages;
- Weekly follow up with the account of the contract in place;
- A new contract will be awarded for the procurement of parts, which lessens the procurement delays, and;
- Constant monitoring and evaluating the work done by the garages.
