Good day Nozipho

My apology for the delayed response. I experienced connectivity issues last week.

In addition to the Complaints Log already provided to the Authorities, the RBCAA also notified the Authorities, via email, of all SO2 exceedances recorded by the RBCAA from 24 December 2021 to date.

Please find attached the following;

- Updated Complaints Log for the period Dec 2021 – Feb 2022, including responses received to date from Industry
- Exceedance Log for the period Dec 2021 – Current, including responses received to date from industry

The RBCAA would like to highlight that the incident of 7 February 2022 was not confined to the Richards Bay High School.

Should you have any queries regarding the attached please feel free to contact me.

Kind regards,

Sandy Camminga | Director & Founder Member | **Richards Bay Clean Air Association** [NGO]

Subject: Richards Bay High School follow up inspection

Good Day

The authorities are currently conducting a follow up inspection on the incident that occurred on the 7th of February 2022 at Richards Bay High School. Is there any additional information that RBCAA might have beside the complaints that were shared with the authorities.

Thank you
