Dear Madam

On the 21 June 2022, Moqhaka Council approved the 2022/2023 budget to increase tariffs.

1. Was the approved tariff increase implemented on the 01/08/2022 as per Council resolution if not, why?
2. It seems that some residents' accounts were only affected on the 01/02/2023, why?
3. Will Moqhaka Municipality take disciplinary action against the person responsible for not implementing Council resolution timeously? If not why, if yes what / when /how?
4. Will Council write off affected increases as from 1/2/2023 to residents? If yes, will the responsible person be required to pay the loss of income back to Moqhaka? If no, why not?

Regards
