Sir

**CABLE THEFT IN HARTBEESSPOORT LEAVE RESIDENTS IN THE DARK
AGAIN**

Last night/early morning, an electric cable spanning 30 metres was stolen near the Ifafi Hartbeespoort substation.

This is the fourth incident of this kind in recent weeks.
It looks like a syndicate is targeting the Hartbeespoort region.

An investigation needs to be conducted into the **security company** that monitors the substation at night. The fact that they didn't hear anything is impossible.
We wrote a letter to the Acting Station Commander, Kol Erick Brand and Security Companies in the area to assist with patrolling the area in Ifafi.

Your co-operation will be appreciated.

Kind regards

Clr Erna Rossouw
