Sir

CABLE THEFT IN HARTBEEPOORT LEAVE RESIDENTS IN THE DARK AGAIN

Last night/early morning, an electric cable spanning 30 metres was stolen near the Ifafi Hartbeespoort substation.

This is the fourth incident of this kind in recent weeks.
It looks like a syndicate is targeting the Hartbeespoort region.

An investigation needs to be conducted into the security company that monitors the substation at night. The fact that they didn't hear anything is impossible.
We request your co-operation to patrol the area by night with the Security Companies.

Your co-operation will be appreciated.

Kind regards

Clr Erna Rossouw
(Signed Electronically)
