**City Manager  
Musa Mbhele  
eThekweni Municipality  
City Hall  
Durban**

Dear City Manager

The Municipal Swimming Pool in Illovo is in a sad state. Not only is the swimming pool empty and not available to the community of Illovo but there is a substantial sewage into the property for almost two years now. The swimming pool is close to the Illovo Primary School where learners are expected to be educated daily.

Based on the above:

1. What plans does the city have to repair the swimming pool and when can we expect these plans to be completed?
2. What have been the delays in having the swimming pool repaired/refurbished?
3. What budget has been allocated to the repair and refurbishment of the swimming pool?

**B. NXUMALO**
