To: Sakhisizwe Local Municipality

Attention: Municipal Manager  
Mr. sotshongaye

Email : mm@sakhisizwe.gov.za

## **Re: Elliot Town internal streets**

I am writing to express serious concern to your office regarding the condition of the Elliot town's internal streets.

The rain season brings a heightened risk of street flooding caused by blocked drains, which will be a significant challenge.

The water damage to the road infrastructure is resulting in the formation of potholes.

This issue has persisted in the Elliot town for a considerable time, negatively impacting on the residents and business that pays rates to the Sakhisizwe Local Municipality.

### **I am including some of the affected streets:**

***Dirkie Uys street, Lloyd Street, Station street, Barry Road past police station and Elliot High school,***

***Robinson Street, Thompson Street, Bank Street, Weber street, Chaboud street, Barkley street, Church street, Grey street and many more.***

Your prompt response on a plan to address this challenge will be highly appreciated.

I hope to hear from you within 7 days on a plan to address this challenge.

Yours Faithfully  
Marlene Ewers (MPL)
